Sub: PUBLIC HEALTH - South Kanara District - Anti-Malaria Mosquito scheme - Extension to villages - requested.

---

The District Board, South Kanara, in its Resolution No.129 dated 27.6.1953, has resolved to move the State and Union Governments to extend the activities of the anti-malaria department working in the District to the villages in Panchayat and Municipal areas of this District where the anti-malaria measures are not in operation and thus to eradicate mosquitoes and prevent Filariasis and other mosquito borne diseases. I request that the Government may be pleased to pass orders on the resolution.

2. A copy of District Board Resolution No.129 dated 27.6.1953 is enclosed.

FOR SPECIAL OFFICER,

Copy to the Director of Public Health, Madras.
Copy to the Dt.Health Officer, S.Kanara and Health Officer, Anti-malaria Scheme Puttur.

Extract from the proceedings of the meeting of the Members of the SOUTH KANARA DISTRICT BOARD dated ~~Public Health Standing Committee~~ 27th June 1953.

3

---

129. Read letter dated 1.6.1953 of Sri Faroki Abdul Shukoor, South Kanara District Board Member, Karkal intimating the President, Dt.Board, S.Kanara, his desire to move the following resolution at the District Board Meeting.

"This Board suggests and resolves to request the Provincial Government and Central Government to extend the activities of the Anti-Malaria Organization in eradicating mosquitos and preventing Filariases and other mosquito borne diseases through the existing Anti-malaria Department of this District, in all the villages, Panchayats and Municipali areas of this District. Just as the District Board since contributing for the anti-malaria operations the concerned Panchayats and Municipalities may be induced to contribute their mite towards the exepnses in the matter to supplement Government Grants".

Resolution: "Moved by Sri F.A.Shukoor and seconded by Sri M.S.Adhikari - Passed unanimously".

Sd.B.M.Hegde,
President.

2.From the Regional Malariologist,Coimbatore R.No.2576-53-1 dated 5-8-53.

*****

The District Board Resolution would seek to extend the activities of the District anti-malaria scheme to the entire District and to utilise the staff for the combating of filariasis and other mosquito-borne diseases also. The proposition is not feasible for the following reasons:-

1.Anti-malaria work spread over the eastern portions of the South Kanara District would occupy all the time and energy of the ~~existing~~ staff now working in the District.

2.The two diseases of Malaria and Filariasis are not found co-existent in any place and would therefore require separate staff for their control.

3.Filariasis is by itself a major problem found along the coastal areas of the District.

4.The Government have already decided on a policy that the initiation for anti-filariasis work will come from local bodies who would however receive assistance from Government in the shape of 1/3rd grant.

Yours faithfully,

Director of Public Health.
